報名者簽名：					日期：    年    月    日				

說明：(1). 請有意報名同學委請一位本院專任教師(不限就讀系所)簽字推薦，並請就讀系所主任簽章；(2). 報名時需檢附：附名次證明之歷年成績單、擬發表報告之中英文摘要(一頁)，連同此報名表格(填寫完備、清晰)，左側裝訂後請於 **110 年 5 月 21 日(星期五)下班前**，送交農資學院(農環大樓二樓)黃紹毅副院長收。逾期不予受理；(3). 報名資格：限農資學院學籍且目前在讀之大學部二、三年級或碩博士班一般生；(4). 本院遴選時，學生須以英語發表五分鐘演說並備詢答問；(5). 獲選者須準備以英文錄製之演講檔案及論文摘要上傳論壇，並於論壇期間全程參與線上活動。  
 ※選荐評分項目：學業成績(10%)、儀態(10%)、臨場反應(20%)、語言能力(30%)及報告內容與大會主題相關性(30%)。

# **The Twentieth International Students Summit (ISS) on Food, Agriculture and Environment**

*Linking Actions, Research and Education in Agriculture Value Chains to Achieve  
Environmental, Social and Economic Sustainability*

**September 14 – 17, 2021, Online**

## **Statement**

The rapid global spread of the unprecedented COVID-19 pandemic since 2020 has affected millions of people already made vulnerable by food insecurity and malnutrition, furthering the sustainability crisis the world had been facing before 2020. This global situation makes it evident and urgent to draw together the wisdom and vitality of youth, the torchbearers of the future of mankind. There are especially wide-ranging missions for agricultural students, as agricultural science plays a key role in the solution of fundamental problems in food production and safety, environmental conservation, energy, and human health. The system of food production and consumption is without a doubt closely related to the condition of the natural environment, the stage of economic development, and food culture in each country, and their patterns and problems reflect regional characteristics. It is thus important to understand how agriculture and food systems should be organized and maintained in each society.

Tokyo University of Agriculture (Tokyo NODAI) has been organizing the “International Students Summit (ISS) on Food, Agriculture and Environment” since 2001 to provide students from our global partner universities with an opportunity to gather and exchange views and ideas on global food, agricultural, and environmental issues, and also to discuss their own roles in sustainable development.

This year, the 20<sup>th</sup> ISS will take place on September 14-17, 2021 around the theme “Linking Actions, Research and Education in Agriculture Value Chains to Achieve Environmental, Social and Economic Sustainability,” which was adopted at the 19<sup>th</sup> ISS. Due to the pandemic situation, the event will be exclusively held online. We expect the participating students to share the activities they have undertaken at their universities during their presentations and discussions. The framework of student activity as to the rationale, methods, implications (economic, social and cultural), and constraints should be clarified in order to foster their contributions to the solution of global problems for the sustainability of this world.

- Two<sup>(\*)</sup> presenters will be selected by each participating university. Each presentation must be aligned with one of the following **sub-themes**:
  - Session 1: Students’ Actions in the field of **Agriculture**
  - Session 2: Students’ Actions in the field of **Environment**
  - Session 3: Students’ Actions in the field of **Food**
  - Session 4: Students’ Actions in the field of **Education**
  - Session 5: Students’ Actions in the field of **Nutrition**

<sup>(\*)</sup> Upon the exceptional financial support from MEXT, 6 representatives from our partner universities in Africa will be allowed.

- Each partner university is required to appoint a faculty advisor for each presenter, supporting them and ensuring high quality abstracts and presentations. The advisors are welcome to attend the 20<sup>th</sup> ISS online.

Tokyo University of Agriculture

# Introduction to the 20<sup>th</sup> ISS

**ONLINE**

Hosted by Tokyo University of Agriculture

# What is International Students Summit (ISS)?

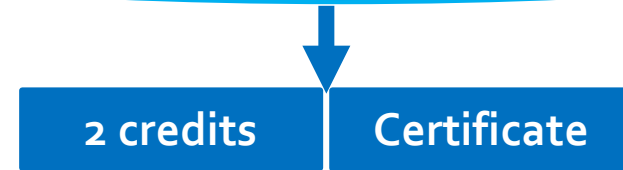

Tokyo NODAI has been hosting the ISS since 2001 to provide an opportunity for students from around the world to gather and exchange views and ideas on food, agricultural, and environmental issues in the world, and to discuss the role to be played by youth for the sustainable livelihood of mankind. This year, the 20<sup>th</sup> ISS includes the new sub-theme of “Nutrition”, making a total of 5 sub-themes.

# Online Program

❑ Due to the COVID-19 pandemic, Tokyo University of Agriculture (Tokyo NODAI) offers the 20<sup>th</sup> International Students Summit exclusively online.

❑ Held in the fall, the program is meant to raise next generation leaders based on the comprehensive combination of practical learning and leadership experience. Upon successful completion of the program, undergraduate students will be awarded 2 academic credits if they complete all the tasks and actively participate. This program especially encourages participation of undergraduate students.

# Theme of the 20<sup>th</sup> ISS 2021:

*Linking Actions, Research and Education in  
Agriculture Value Chains to Achieve Environmental,  
Social and Economic Sustainability*

# Who are the presenters?

- ❑ Students representing their respective universities by presenting their current research, project, or other initiatives **related to the 20<sup>th</sup> ISS theme** to have meaningful discussions with other students and scholars from around the world.
- ❑ Two (02) students (Representatives) will be carefully selected by each university as presenters.

*(A Presenter)*

# Requirements to get certificate accreditation for the 20<sup>th</sup> ISS

All participant students of the 20<sup>th</sup> ISS will get certifications provided they have completed tasks including, but not limited to:

- ❑ Submission of all required documents (e.g., 2-3 pages A4-size extended abstract, self-introduction PowerPoint and presentation video)
- ❑ Watch of all uploaded on-demand presentation videos
- ❑ Attendance of the Pre-Summit on July 17
- ❑ Attendance of the online symposium on the 130<sup>th</sup> anniversary of Tokyo NODAI on Sept. 14
- ❑ Attendance of the session of assigned group during the ISS week on Sept.15 or 16
- ❑ Active participation into discussions through meaningful comments and questions

*Note: Undergraduate students can get two academic credits from Tokyo NODAI if they have fulfilled all requirements.*

# Special features of the online 20<sup>th</sup> ISS

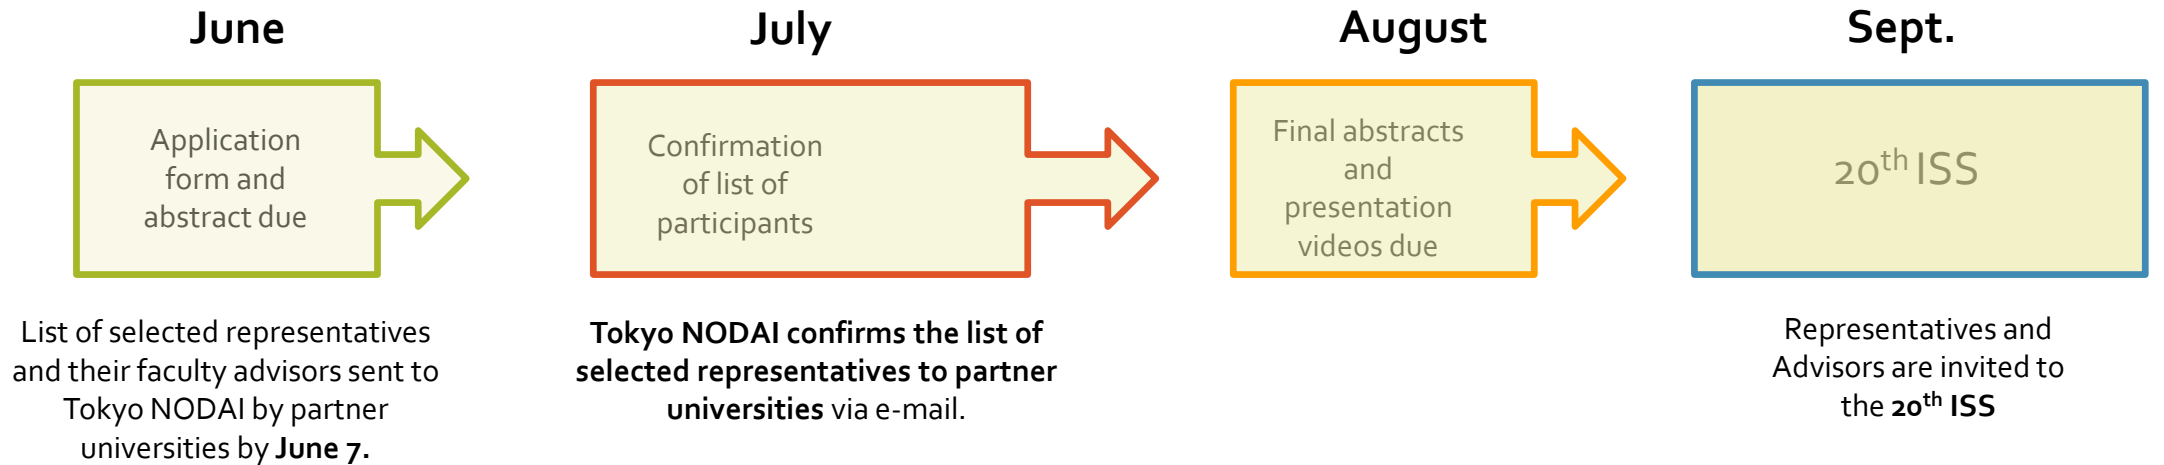

As the 20<sup>th</sup> ISS will be held online, the following changes will be implemented:

1. Registration of representatives through Google Forms
2. Submission of extended Abstracts (**2-3 pages Word File, A4 size**)
3. Prepare a self-introduction PowerPoint
4. Submit pre-recorded presentations as **mp4 files**
5. Organization of a Pre-Summit
6. Extended Abstracts in PDF format and published open-access

# Structure of the 20<sup>th</sup> ISS

Day 1

14

## Opening and 130<sup>th</sup> Tokyo NODAI Anniversary symposium

Students and partner universities are invited to the opening ceremony and to attend the symposium on the 130<sup>th</sup> anniversary of Tokyo NODAI.

Day 2

15

## Parallel Sessions

Presenters present in their assigned session group. Another session on a different theme will be held in parallel at the same time.

After parallel sessions, presenters will stick post-it notes on an online whiteboard sharing the common issues and possible solutions found in their presentations.

Day 3

16

## Parallel Sessions

Day 4

17

## Awarding and Closing

Feedback on students / Advisors experiences of the online ISS and closing remarks from Tokyo NODAI

The best presentations will be awarded.

## Next ISS theme

Based on the post-it notes from all groups, the next ISS theme will be decided and notified to all partner universities later on.

# WE ARE LOOKING FORWARD TO RECEIVING YOUR APPLICATION!
